BRIEFLY ABOUT MYSELF

Hello, my name is Nataša, and I am a passionate graphic designer. Generally, I enjoy all kinds of design (graphic, industrial, fashion), but I am focused on graphic design for now. Although I'm expanding my knowledge in the 3D modeling area ... graphic design is my main professional destination.

DESIGN PROCESS

I start by reading the Brief.

If the Brief isn't detailed and if something is unclear, I always require more explanations and details.

Then, I do a large search of the web, being focused on obtaining every piece of information I can about my new job demands.

After that, I make concepts on a sheet of paper or digitally...

Once satisfied with my concepts, I put everything in a digital form, and the first examples are ready for review!

Next step – my client sends me multiple revisions until we find a perfect design solution.

Finally, I ask my client to provide me with the info about which file format he/she needs (at the beginning, I asked my client if it was for the web or to be printed); in the end, the final product is ready for use.

Also, I give my clients an opportunity to at any time ask me anything they want to know about these files... in case anything might have remained unclear.

THE SERVICES I PROVIDE

- Graphic design
- Logo design and stationery
- Data visual design / Infographics
- Brochure and Leaflet design
- Packaging design
- Illustration
- PPT presentations
- Tradeshow graphics

GRAPHIC PROGRAMS

- Adobe Illustrator
- Adobe Photoshop
- Adobe InDesign

Thank you for your time and attention.

Natasha
